Larry Fredrick 1st Session	Free Stuff On the Internet	All of us would love to have lots of money to buy all the resources we could want for our classrooms. We'd also love to eat whatever we want, never exercise, and STILL not gain weight, but that's not happening either. The good news is there are lots and LOTS of resources out there that don't cost a penny, yet bring a lot of value to your classroom (and your personal life as well). Join us as we dig through some of the most valuable free stuff out there.	<u>Session 1</u> Room #H12
Larry Fredrick 2nd Session	Putting Your Best Foot Forward: Presentations and Printed Materials Worth Putting "Out There"	How to avoid Death by Bullet Point and create printouts that don't get ignored. Whether you're using Google Docs, MS Word, PowerPoint, or whatever, there are some guidelines that will allow whatever you present to be more interesting and, thus, more effective.	<u>Session 2</u> Room #H12
Linden Martin	Using Google Forms for Assignments	Learn to use Google Forms for classroom assignments in order to grade on the go! All you need is a Google Account. We will learn how to create a form, edit it, and download it for use in the classroom! You can also see them being used live!	<u>Sessions 1 - 2</u> 2 session hands on Room #A4
Jeffrey Gudenkauf	Using Google Earth in a classroom setting	Recommended for Users Grades 6-12 Teachers Google Earth can be used in the classroom for math, science and social studies (history included).
